

Bug Report

Defect 1:

Title: The error message displayed for invalid login is not visible properly.

Environment:

- URL: <https://www.saucedemo.com>
- Browser: Google Chrome (latest)
- OS: Windows 10

Steps to Reproduce:

1. Open the browser and navigate to <https://www.saucedemo.com>
2. Enter username: locked123
3. Enter password: secret_sauce12
4. Click the **Login** button

Expected Result:

A clear error message should appear.(e.g., "Enter valid credentials for log in").

Actual Result:

An error message appears: "Epic sadface: Username and password do not match any user in this service." The alignment of the text needs to be fixed to ensure readability. This message is unclear to end-users, uses informal language ("Epic sadface" is unprofessional), and lacks direction on what to do next.
